ADDITIONAL DETAILS

The five models of the 'Aichi E-Series Scissor Lift' offer working heights of 25, 26, 32, and 38 feet. Working height is calculated by adding six feet to the platform extended height. The versatility of the Aichi makes it easy to maneuver through your facilities to reach up and across obstacles.

The multi-use AICHI E-Series Scissor Lifts can easily be used for multiple purposes between facilities maintenance, construction, plumbing, painting, and more.
