- **MODEL:** RF1-MD1X45
- **CAPACITY:** 4,500lbs
- **FEATURE ONE:** Auxiliary Fork Carriage Option
- **FEATURE TWO:** Articulating Load Wheels for Horizontal Travel

### ADDITIONAL DETAILS

#### WORK HARD, PLAY HARD

Toyota's Multidirectional Reach Truck is an innovative alternative to traditional material handling, specifically designed to handle wide, bulky loads. Articulating load wheels allow the forklift to travel horizontally, permitting compact travel and stacking wide loads in narrow aisles without the need to turn. The ability to travel both parallel or perpendicular to racking saves you time and space while increasing productivity.
