ADDITIONAL DETAILS

The 'Kalmar Reach Stackers' come in 3 different versions, the DRG420-450S and the DRG420-450L are for heavy and demanding container handling, while the DRG400-450C is for versatile inter-modal handling.

We can see a dramatically growing need for cost-effective, productive and flexible container handling, beyond the big seaports. Any driver with the ability to take advantage of the machines' capacity and technical benefits will find the 'Kalmar Reach Stacker' a powerful, flexible tool for handling containers with the lowest possible operating and maintenance costs.

The extensive freedom allowed by the lifting equipment, boom attachment and its rotation possibilities, means you can handle loaded containers quickly and efficiently in narrow spaces, with optimum visibility.
